PROFESSIONAL EXPERIENCE

Screenless Health-Tracking Wearable New York, NY
Creator & Product Lead February 2026 – Present

- Led a self-initiated hardware venture, defining a screenless, jewelry-first health-tracking bracelet after competitive analysis of Whoop, Oura, and Ultrahuman, and writing a product spec that prioritized an MVP feature set (heart rate, sleep, steps)
- Applied generative AI to engineer a parametric Fusion 360 model and ran iterative build-test cycles on 3D-printed prototype variants to refine fit and comfort; built a Swift/SwiftUI iOS app streaming live sensor data over Bluetooth
- Pitched manufacturers with a technical deck and RFQ, built project cost estimates, and partnered with an NYU industrial designer to finalize the form factor

Einhorn Ventures Remote
Software Development Intern May 2025 – September 2025

- Built and demoed web application prototypes, managing each from concept through development and testing before presenting to the managing director
- Designed relational database schemas in Supabase to collect and store user data, implementing user authentication and integrating back-end data with front-end features
- Managed source code and version control in GitHub, debugging and refactoring AI-generated code to resolve errors and improve app functionality

R Shay Jewels Jericho, NY
Founder December 2022 – July 2024

- Founded and ran a direct-to-consumer online jewelry brand, managing product sourcing, operations, and customer relations
- Designed the e-commerce website and built brand identity through social media marketing and digital content creation
- Partnered with local retailers to host in-store pop-up events, negotiating terms and expanding sales beyond online channels

LEADERSHIP

New York Dance Marathon New York, NY
Fundraising Chair September 2025 – May 2026

- Planned fundraising initiatives through events, outreach, and donor engagement, partnering with Greek life chapters and campus organizations to support the Andrew McDonough B+ Foundation in the fight against childhood cancer
- Drove fundraising efforts behind the 2026 marathon, which raised $512,000+ for pediatric cancer research and family support

SKILLS & INTERESTS

- **Technical:** Python, SQL, Swift/SwiftUI, Autodesk Fusion 360, nRF Connect SDK, Supabase, GitHub
- **Languages:** Spanish (conversational)
- **Volunteering:** Andrew McDonough B+ Foundation, Sharsheret, Elizabeth Glaser Pediatric AIDS Foundation
- **Interests:** Tennis, cooking & baking, wearable technology, emerging AI tools, fashion & consumer trends
